Homework

Find each total. Show all work. Round to the nearest hundredths place.

1. \$256 with a 5.5% sales tax

2. \$21.99 with a 8% sales tax

Find the total payment, given the cost, tax, and tip rate.

3. \$42.75, 6% tax, 15% tip

4. You buy a game for \$39.99 in a store that has a city tax of 0.5% and a state tax of 7.25%. How much will you pay for the book?

Estimate a 15% tip for each amount.

5. \$9.89 for lunch

6. \$22 for a haircut

Find the cost of each service, given the percent and the amount of the tip.

7. 20% tip, \$19.70

8. 15% tip, \$20.04

9. You go to a restaurant with three other people. The total for the food you all ordered is \$58.94. There is a 7% food tax. You want to give a 15% tip. You decide to share the bill equally. Find how much you will each pay.
